CATALOGUE **GENERAL**

## COMPANY PROFILE

Dear Colleagues & Partners/ Well-Wishers,

We are feeling very happy to introduce our new venture **ULSY** with wide range of Sanitaryware Products.

**ULSY** Sanitary wares is a modernized national enterprise integrated with sales and service. We have a complete Sales Strategy and efficient sales team, applying brand strategy, setting up enterprise image, and being the Advocate and Pioneer in the field of world class sanitary ware.

Keep improving and striving for excellence is the core strategy to our quality requirement. The company is devoting itself to exploring deeper on global sanitary ware, so as to provide high-quality products and sincere, sophisticated service to the whole society and customers, to build up the better life for all humans.

**ULSY** sanitaryware is a company that has big scale, high technology and a variety of products. It has over 20 series of sanitary wares including art basin, cabinet basin, wall-hung toilet, one-piece toilet, two-piece toilet, pedestal basin, wall-hung basin, counter basin, art basin, urinal.

From design to manufacturing, we only use the most technologically advanced materials and processes. This has ensured our position as market-leader and innovative creators of sanitary and bathroom wares.

### Quality

Our company has established cooperative relationship with foreign countries, that introduce advanced technology and management from Spain and Italy for reaching the international advanced standards of performance.

## GO-GREEN

Respect for the environment

Ulsy Sanitaryware's sensitivity to the world's ecological emergency has prompted it to place the environment at the heart of its economic, social and industrial policies.

Ulsy Sanitaryware is a sustainable company with regards to its industrial role and relationship with the surrounding territory. The production facility integrates harmoniously with the place where nature is considered an asset and a heritage to be protected and valued. This desire is manifested in the continuous implementation of new technology that allows using clean energy, and also in the different design options that allow the company to have less impact on the environment.

# RIMLESS

## The ultimate rimless technology for your bathroom

A rimless toilet made for significantly easier cleaning and a clear improvement in hygiene. There is no build-up of bacteria and no possibility for limescale to lurk. The rimless technology ensures quintessential hygiene with effective flushing that offers an efficient solution ensuring that the entire inner surface is rinsed throughout the flushing process.

# FLUSH TECHNOLOGY

## Tornado

Tornado flush system features two powerful nozzle that will create a cyclonic rinsing action. It will reduce waste buildup & keeps the bowl neat and clean. This high-efficiency mechanism is more effective in one flush that most toilets are with multiple flushes.

## Siphonic

The siphonic flush system is also known as the suction flushing system. The siphonic flush system creates the narrow 'Q' shaped trap way. You'll have a clear bowl with a lower chance of skid marks. With the use of advanced technology in flushing.

## Siphonic with Tornado

The combination of siphonic & tornado will bring the highest quality of hygiene into your bathrooms. With the help of this advanced & one of the easiest to maintain flushing systems, it'll be easier to keep up with cleanliness in just a second. We introduce you to brand new features 4D & 5D flushing system.

## Wash Down

The way wash down flushing works is very simple. It will use the weight and gravitational flow of water from a toilet bowl. It will save your water effectively as it includes dual flushing.

## WATER SAVING

Our WCs have a special bowl structure and are specifically designed to flush with both lower (2.5/4 litre) and typical (3/6 litre) water volumes.

By using less water, these water saving WCs benefit you and the environment. All our standard height wall-hung frames come with dual flush function as standard in both 2.5/4 litre and 3/6 litre options.

## RIM-LESS TECHNOLOGY

Offering effortless cleaning and innovative, hygienic design. Our rimless WC pan eliminates the areas where germs gather and multiply, giving a superior level of hygiene.

## WASHBASIN FORMS

Washbasins can be used with a pedestal as well as being wall-hung. Basins suitable for use with a counter top can be fitted in three alternative ways:

## SPACE SAVING

A wall-hung WC takes up less room than a conventional WC, and the concealed installation offers flexibility in confined spaces. The range of compact WCs have shorter projection, saving even more space.

## FISCHER

A simple, elegant installation system for use with wall-hung WCs. The fixings are hidden from sight by the use of internal ABS sleeves, creating a clean, smooth design.

## ACCESSIBLE

These products are wheelchair accessible and provide enhanced convenience in the bathroom.

### WALL HUNG BASIN

As per shown in the picture, the rag bolt must be grouted into the cement/concrete wall. The bolts must be fixed to the cement/concrete wall. Allow setting & checking than install it using nut and washer.

### COUNTER WASHBASIN

At the beginning

1. A skilled or experienced person should install counter lavatories.
2. Avoid using adhesive with this product.
3. Check the waste area and supply tubing if required.
4. Do not open the lavatory from its protective carton until you are ready for installation.
5. Please follow all local building and plumbing codes.

### MATERIAL & TOOLS

Measure tape, Keyhole or saber saw, Hammer, Glasses, Rags or Paper toweling, Drill (1/2 dia, drill bit or larger), Pencil, sealant, sharp knife or scissors.

### INSTALLATION OF LAVATORY

Please Note : Please install it in a way that future removal from underneath the counter top is possible without damaging the counter top.

1. Please check the desired location for clearance between the back splash, faucet, Fixture and cabinet.
2. Please cut the template.
3. Please carefully trace the template on the counter top directed.
4. Please mark the faucet hole centerline on the counter top.
5. Please drill a 1/2" pilot on the inside of the cut line.

#### For Wood Counter tops:

1. Mark and pre-drill the wood screw holes at the locations shown on the template.
2. Waterproof any exposed areas of wood.

#### For Marble Counter tops:

1. Position the counter top upside down on foam padding to protect the surface. Mark and drill 3/6" holes 5/8" deep at the locations shown on the template.
2. Use a setting tool and hammer to secure the anchors.

#### For All Installations:

1. If the counter top has not been installed, install it at this time.
2. Drill the faucet holes according to the faucet installation instructions.
3. Install the faucet to the counter top according to the manufacture's instructions.
4. Install the drain to the lavatory according to the manufacture's instructions.

### MAINTENANCE

Like any other part of your house, the bathroom can be made to look great and made to last if it is taken care of regularly. To make your bathroom beautiful here are some invaluable tips.

#### Wash Basin

A mild detergent can be used to wash the basin at least once a day. After washing, the basin should be wiped out clearly to avoid water stains.

#### Closets

Cleanser like Harpic can be used to clear the closet with soft plastic brush, at least once a day.

To avoid minute discoloring, after flushing the toilet give it a once over with the soft brush.

Keep the toilet brush handy in a convenient stand nearby.

In case of toilets and basins, if there has been no maintenance since long period of time, water deposits and discoloration can form on the surface of areas that get wet. In such cases, these stains / marks can be removed with the help of a solution of dilute hydrochloric acid.

Clean with a soft cotton cloth and warm water with soap.

Do not use thinner, dry cleaning liquids or powder paste. Use a liquid cleaner at least twice a week.

Use Brasso or car rubbing compound and then polish with a cloth to remove fine scratches.
